

Partner with Augusta Dev

A Community-Powered Tech Collective in the CSRA. Powered by Softground LLC

Who We Are

Augusta Dev is a growing community of local tech professionals committed to leveling up the technical capacity of Augusta, Georgia and the CSRA.

Backed by a local software consulting LLC, we connect technologists with real-world projects that build skills, serve our city, and improve the quality of local software and data products.

We run:

- | | |
|--|---|
| <ul style="list-style-type: none">• Monthly Tech Meetups via Tech Talk Augusta• A Community Discord | <ul style="list-style-type: none">• Hands-on Projects & Paid Workshops• Active Social Media Channels |
|--|---|

Who We Serve

We're hyper-local and proud of it. The business started February 2024. We started our meetup in January 2025. As of July 2025, we've partnered with 6 local Augusta organizations on software projects.

We engage with:		Platform	Stats
Job seekers	Students	Instagram	979 followers
Freelancers	Professors	Facebook	374 followers
Government organizations	Small business owners	Meetup.com	50 members
Corporate employees	Laboratory scientists	Discord	40 members
All local to Augusta and the CSRA.		Monthly Meetup	~30 attendees
		Engagement	Consistent monthly posts

What We Do

We partner with local businesses, city departments, universities, and nonprofits to **solve real problems**.

What a Partnership Looks Like

You Bring:	We Bring:	We Guarantee:
<ul style="list-style-type: none">• A real challenge to solve• A budget (small or large)• A willingness to collaborate	<ul style="list-style-type: none">• A team of capable professionals• Transparent pricing (fixed-fee preferred)• Thoughtful project leadership• Long-term relationship mindset	<ul style="list-style-type: none">• Professionalism• Clear communication• A commitment to <i>your</i> success• Local talent, local impact

How It Works:

- You bring a challenge
- We scope it together
- We build a team from our community
- We deliver a fixed-fee solution
- We support the long-term success

Past Projects

- Designed and deployed full cloud environments using Infrastructure as Code
- Managed point-of-sale tech for restaurants
- Built internal and public-facing web applications for local businesses
- Built AI/ML tools and prototypes
- Delivered proposals and architecture for consulting clients

Venue Partnerships

We're also seeking local **venues to host events, workshops, and coworking**. If you have space and want to support Augusta's tech scene, let's talk.

Let's Build Something Together

Whether you're a business, educator, city department, or nonprofit:

If you've got a problem worth solving, we've got the people to solve it.
